About Climate Action Fife

Climate Action Fife is an exciting project starting in June 2022 and will focus on making Fife a more carbon friendly place to live. A partnership project with 11 other organisations means we have a real chance to make a huge measurable difference.

This role is based on previous work by the Young Person Climate Action Team where young people identified key themes in climate action that they would like to be involved in.

The 12 partners in Climate Action Fife will be taking forward activities such as Climate Friendly Food, Climate Friendly Travel and Climate KnowHow training to upskill and encourage people to get involved in tackling the climate emergency.
